Holiday home by the Baltic Sea in Großenbrode

Holidays by the Baltic Sea

Holidays in our own home. That was the Habermann family's dream. Now the family's favourite property is Großenbrode, very close to the beach, and with the Baltic Sea is only a short distance away. They can't wait for their next holidays to arrive!

There are large south-facing window fronts and a spacious balcony to enjoy the sun and the sea breeze all day long merging the inside and the outside into one.

Wooden ceilings and floors frame the interiors, conveying warmth and comfort. Elsewhere, white, light-coloured furnishings dominate. It is kept low-maintenance and perfectly equipped for the next family visit.

In the kitchen and bathrooms, the RAUVISIO crystal glass laminate adds highlights to the interior where you would normally expect tiles. This also applies to the shower, where they are in sea blue conveying a special Baltic Sea atmosphere.

Customer

Habermann Family, Germany
