Our verbal and written advice with regard to usage is based on years of experience and standardised assumptions and is provided to the best of our knowledge. The intended use of REHAU products is described comprehensively in the technical product information. The latest version can be viewed at [www.rehau.com/TI](http://www.rehau.com/TI). We have no control over the application, use or

processing of the products. Responsibility for these activities therefore remains entirely with the respective user/processor. Where claims for liability nonetheless arise, they shall be governed exclusively according to our terms and conditions, available at [www.rehau.com/conditions](http://www.rehau.com/conditions), insofar as nothing else has been agreed upon with REHAU in writing. This shall also apply for all warranty claims, with the warranty applying to the consistent quality of our products in accordance with our specifications. Subject to technical changes.

## Tambour doors made with real glass

Storage made stylish – RAUVOLET vetro-line  
[www.rehau.com/rauvolet](http://www.rehau.com/rauvolet)

Fascinating glass reflexes combined with sleek design. RAUVOLET vetro-line brings a touch of tradition to storage with the use of real glass.

## Real glass in tambour doors

Glass is a standard component of interior design. Thanks to its unique interaction with light, its pleasant, cool surface feel and its ability to add transparency to features, glass can be used to create some one-of-a-kind design solutions.

With RAUVOLET vetro-line, you can take advantage of all of these benefits for your storage solutions, combining functionality, surface feel and look for a high-quality unit. With its 50 mm wide slats made of singlepane safety glass, RAUVOLET vetro-line achieves a harmonious, two-dimensional front.

A strong mix for modern interior design, whether it is used in kitchens, living rooms or even shop fittings.
