# RAUVISIO cube

The pure beauty of concrete

With RAUVISIO cube, interiors can be designed with a stylish, cool concrete look. The material is similar in feel and appearance to the popular building material – but has clear processing advantages. Thanks to the natural air pores, each panel is individual and unique in its surface structure.

## Advantages at a glance

More scratch- and break-resistant than real concrete

Lighter than real concrete

Water & heat resistance

Authentic 3D structure

Anti-fingerprint

Can be worked on with standard woodworking tools

## Interior in design match

The RAUVISIO cube collection finds its colour counterpart in RAUVISIO noir and thus the entire noble matt collection. The result is an almost inexhaustible variety for a pure and minimalist interior. The range is rounded off by the RAUVOLET noble matt roller shutter in the same colour.
