

Engineering progress  
Enhancing lives

## **RAUVISIO surfaces**

Feels like home.

# Engineering progress

What drives the furniture industry? The continuous search for the perfect appearance, combined with the need for uncompromising reliability. Two standards which are deeply engrained in REHAU's DNA. With this in mind, we keep optimizing our existing products in order to turn something already good into something even better; simultaneously setting new trends. In doing so, we always remain focused on the quality benchmark that has made us what we are today. In other words: Engineering progress. Enhancing lives.

Enhancing lives

**Enable creativity,  
create favourite places**

Whether it is in a kitchen, bathroom, living room or indoor applications in offices, restaurants and shops – the RAUVISIO surface ranges provide unimagined scope for your creativity.

This is not only ensured by the high-quality appearance, innovative functionality and extreme durability, but also by the infinite number of design options.

However, the result is always the same: places where people love to spend time.

# The world of RAUVISIO surfaces

True to our motto 'Engineering progress. Enhancing lives.' we always work on enriching your life and that of your customers just a little more with our well-thought-out innovations.

Making life easier

# We need to talk... about sustainability!

'As a family business, sustainability is an integral part of our DNA. From the very beginning, we have thought in terms of generations and not quarterly results.' – Dr. Veit Wagner, President of the REHAU Group

## Resources are valuable – and should be treated as such

The so-called linear economy follows the 'take – make – waste' principle. This means that raw materials are processed into products that are simply disposed of at the end of their life cycle. This leads to the destruction of many valuable (and finite) raw materials that could actually have been recycled.

## Time to rethink: circular economy at REHAU

For years, REHAU has actively pursued the approach of the so-called circular economy. Our own recycling facilities and large-scale investments are supposed to ensure that once a product has been manufactured, it remains in the material cycle for as long as possible – without creating additional waste.

### Advancing the circular economy

With its tradition as a responsible family business with innovative products and and forward-looking investments, REHAU has been fulfilling the essential requirements of sustainable management for many years. Visit [www.rehau.com/sustainability](http://www.rehau.com/sustainability) to see cinematic impressions of how we are continuing our work to preserve the quality of life on our planet for present and future generations.

### Sustainability guaranteed

Our RAUVISIO crystal, brilliant and noir products meet the PEFC criteria for a end-to-end supply chain for sustainable forest products.

## 50 SUSTAINABILITY & CLIMATE LEADERS

A RACE WE CAN WIN

### Global commitment

REHAU is proud to be part of the 50 Sustainability & Climate Leaders initiative. It brings together companies from around the world that are taking the lead and are willing to take effective action in the fight against climate change. Learn more at

[www.50climateleaders.com](http://www.50climateleaders.com)

## The difference we are already making – and this is just the beginning

43 %

of CO<sub>2</sub> saved (in 2021 in comparison to 2018)

15 %

recycling rate in total tonnage (2021)

> 100.000 t

saved by recycling old windows in window production (2021)

> 60.000 t

recycling rate for return materials in production (2021)

65 %

of packaging made from sustainable materials (2021)

20 %

of electricity saved (kWh/kg) (in 2020 in comparison to 2009)

RAUKANTEX edgebands are one of the oldest programs at REHAU and the backbone of our Interior Solutions product world. Sustainability also plays a key role here: in the responsible use of raw materials, the continuous improvement and pollution-free formulations, or the maximum recycling and reuse of production and processing waste. Already today, the production of our European edgebanding plants is powered 100% by climate-neutral electricity.

### Sustainable product lines complement our portfolio:

**RAUKANTEX eco** – made of 50 % post-industrial recycled material

**Edgeband take-back concept** – take-back & recycling of unprocessed edgebands

You can find more information at [www.rehau.com/eco-protect](http://www.rehau.com/eco-protect)

# The power of passion: Future colors

REHAU's success is not only built on superior product quality, but is also deeply rooted in a passion for interior design. As a leading surface manufacturer, we continuously monitor emerging trends and integrate them into our portfolio to offer innovative and forward-thinking solutions.

The result is a color concept that is both exclusive and innovative. Drawing on a wide range of global and cross-industry inspirations, our surface collections serve as a consistent source of ideas – not only reflecting trends, but setting them. Something that only true passion can achieve.

Natural elegance in bathroom & suite featuring Duna, Onda and Salvia

Vibrant freshness in the kitchen featuring Alba

## **New connectivity: Colors as a bridge between nature and technology**

The boundaries between nature and technology are becoming increasingly blurred – in our environment, our thinking, and our design. While sustainability and natural aesthetics are becoming central values, technological innovations are also evolving, opening up new possibilities for design. The color palette of the future bridges these two poles: it is inspired by organic forms and materials, while also shaped by clear, modern structures.

The longing for a connection with nature, the fascination with technological innovations, and the desire for stability are shaping the color trends of the coming years. We have expanded our RAUVISIO crystal Pure Collection with five new colors that, with their presence, carry this new connectivity forward. These new colors reflect these megatrends and create a harmonious balance between naturalness and progress. They convey trust and stability while simultaneously offering inspiration for innovation and renewal.

## Onda

### Depth & Vision

Onda represents stability, elegance, and visionary design. The color combines classic aesthetics with a modern, digital coolness, reflecting the influence of technological innovations on interior design. It exudes confidence and creates a noble atmosphere that conveys both depth and dynamism.

#### Impact in interior design

Onda has a strong yet balanced presence. As a statement color, it adds depth and structure to spaces while promoting calm and focus. Ideal for modern workspaces, urban living concepts, and creative studios where design meets precision and foresight.

## Nuvola

### Openness & Width

Nuvola stands for clarity and lightness in a world where nature and technology merge. The color embodies transparency and openness, conveys modern calm and creates a balance between digital precision and natural serenity.

#### Impact in interior design

Nuvola has a calming and uplifting effect without losing its radiance. The color creates a modern, airy atmosphere that adds clarity and structure. It is particularly suited for spaces that promote openness, focus, and an inspiring environment.

## Salvia

### Vitality & Regeneration

Salvia embodies vitality and regeneration in a world that is redefining nature awareness and sustainable design. The color combines organic aesthetics with modern design, bringing clear, vibrant energy into the space.

#### Impact in interior design

Salvia is both invigorating and balancing. The color creates a fresh, inspiring atmosphere, enveloping the room in lightness. Especially in living and working spaces, it unfolds its inviting, regenerative effect and is ideal for modern, nature-inspired design concepts.

# Colors as a bridge between nature and technology

## Duna

### Calm & Stability

Duna exudes gentle warmth and timeless stability. Inspired by natural minerals and subtle earth tones, this shade embodies the desire for a reduced aesthetic and sustainable design. It creates a connection between traditional materiality and modern clarity – a discreet yet characterful foundation for a variety of interior concepts.

#### Impact in interior design

Duna brings a calm, balancing presence into the space and is highly versatile in its combinations. It supports a natural, warm atmosphere without overpowering the room, making it ideal for minimalist, Scandinavian, or timeless design concepts. Especially in living and working spaces, Duna fosters a soft, harmonious effect.

## Alba

### Warmth & Vitality

Alba is a color full of natural energy. Its warm, earthy tone conveys both vitality and groundedness – a tribute to nature and traditional craftsmanship. Alba reflects the trend toward authentic materials and brings a natural sensuality to design. It radiates warmth without feeling heavy and creates an atmosphere that invites relaxation and comfort.

#### Impact in interior design

Alba gives spaces an inviting, vibrant aura. It brings warmth to living and dining areas, accentuates modern concepts, and harmonizes beautifully with natural materials and soft tones. Its versatile, timeless impact makes it ideal for cozy, inspiring interiors with character.

# Uncompromisingly harmonious: our product range coordination guide

Those, who value flawless results turn to REHAU, because our product range coordination guide ensures that surfaces, edgebands and storage solutions are perfectly matched in terms of appearance, tactile characteristics and materials.

This not only looks good, but also saves you time and energy – because you can get all components conveniently and reliably from one source. You can then focus on your real work: creating favourite places.

**Reduction  
of bacteria**

by up to 99%  
in 24 hours

## Contact without regrets: **REHAU health.protect**

Making life better can also mean making it safer. This is exactly where REHAU health.protect comes into play – with our antibacterial surfaces.

Our RAUVISIO noir laminate and RAUVISIO brilliant noble matt acrylic laminate are equipped with health.protect as standard. The RAUVISIO crystal glass laminate and RAUVISIO brilliant acrylic laminate are available with an optional antibacterial finish.

## How health.protect protection works

An antibacterial lacquer continually releases slowly diffusing active substances. They not only prevent the cell division of the bacteria but also destroy them permanently.

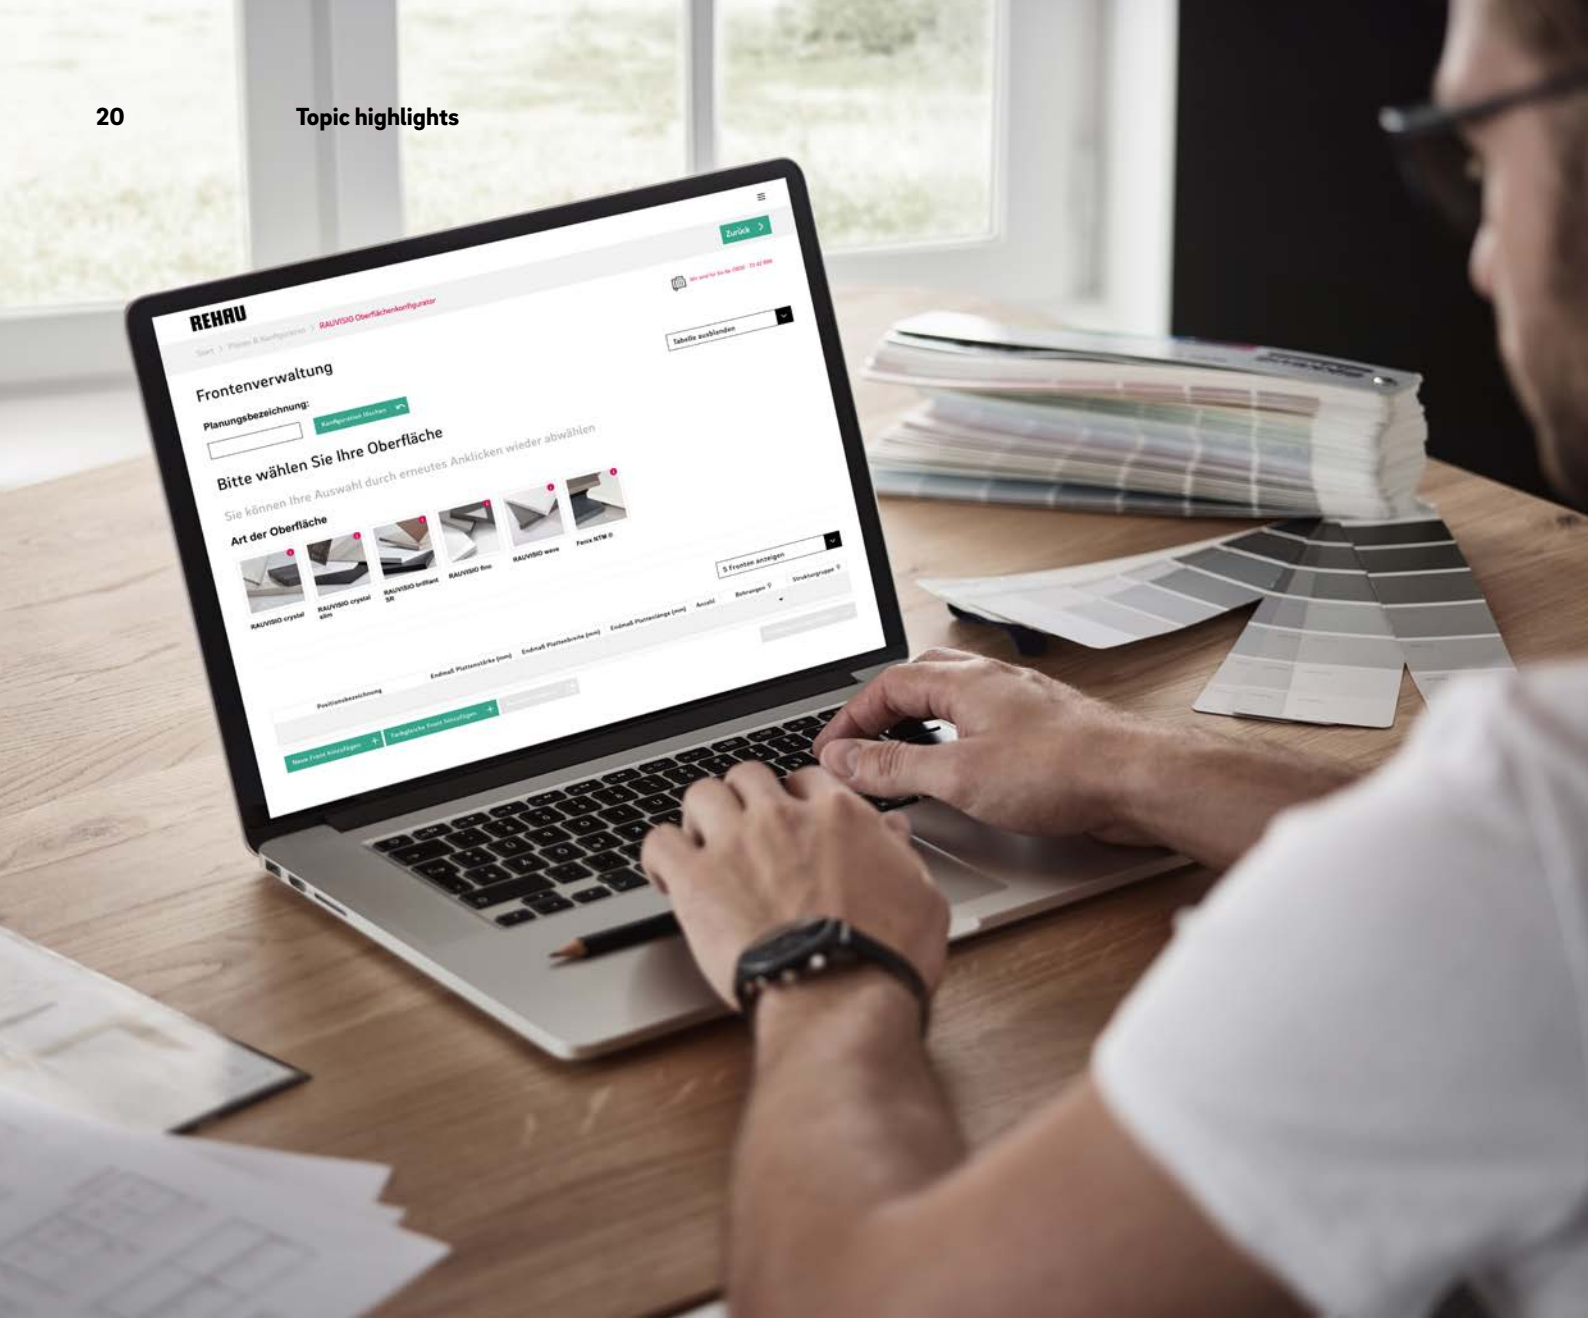

### Complete safety

Of course, you can also get matching edgebands with health.protect. Our zero-joint edgebands offer additional benefits, as there are also no dirty joints where bacteria can accumulate.

### Helps where people get together

- Healthcare
- Living space
- Office
- Gastronomy & retail
- Sanitary facilities
- Hotel industry & public spaces

Discover all the details at [www.rehau.com/healthprotect](http://www.rehau.com/healthprotect)

## Making life easier: our services

Furniture should reflect the individual taste of its owners. We have developed our REHAU joiner services so that you can respond to the wishes of your customers in the best possible way and still keep your processes flexible.

### **Made-to-measure fronts from a quantity of 1: the REHAU surface configurator**

With the REHAU surface configurator, you can create made-to-measure, laser-edged fronts to suit your individual requirements in just four simple steps – for maximum quality with minimum processing effort.

[www.rehau.com/boards](http://www.rehau.com/boards)

- Select material and decorative design
- Enter dimensions
- Select distribution partner
- Specify delivery address

### **Low purchasing quantities**

Large-size boards can be purchased via our distribution partners stocking them from a quantity of 1. Object-related requirements can already be ordered from 1, respectively 5 boards.

Pallets with a mix of boards are possible.

### **Seamlessly beautiful: decorative front designs across units**

A unique feature of the REHAU surface configurator is the arrangement of components with directional designs such as wood or marble. This ensures a continuous texture across multiple components.

### **A perfect match: the REHAU edgeband search tool**

The right edgeband for the surface of your dreams? No problem! Just select the surface in the REHAU edgeband search tool and we will suggest a matching edgeband. It works for almost all surfaces on the market and that with fast delivery from 24 hours for quantities from as little as 1 metre.

[www.rehau.com/collection](http://www.rehau.com/collection)

### **Save time: order with drill holes**

We can now deliver components with ready-made drill holes. To make your planning even easier, we have also loaded drill templates from leading fittings manufacturers into the configurator.

## 02 What inspires us

Whether it is for fashion, art or architecture:  
only those who have appealing sources of inspiration  
can create truly creative solutions and concepts.

## **Matt**

Upgrading design elements and fulfilling demanding requirements

## **Decorative design**

Inspired by nature, refined with individuality

## **High gloss**

Durable, mirror gloss finish combined with inspiring color brilliance

# Matt elegance

Fulfilling demanding requirements for modern aesthetics and showcasing design elements in eye-catching ways.

**You will find matt surfaces in the following product ranges:**

- RAUVISIO crystal glass laminate
- RAUVISIO brilliant acrylic laminate
- RAUVISIO noir laminate

RAUVISIO crystal in Alba matt 3206L

# Natural vibrancy

Inspired by nature,  
refined with individuality

**You will find surfaces with decorative designs in the following product ranges:**

### **RAUVISIO fino lacquer laminate**

The cost-effective alternative

Like glass, only better:  
**RAUVISIO** crystal glass  
laminates

## Who needs real glass when you can have RAUVISIO crystal?

Looks like glass, feels like glass, but is significantly lighter, more resistant and more flexible and can be processed using standard woodworking tools: RAUVISIO crystal glass laminate.

This material is used for front panels, whilst the thin variant is used for rear walls of recesses or wall panels. Whether you are working on a kitchen, bathroom, living room or shop, a wide range of designs available in matt or high gloss, polymer mirrors and optional magnetic surfaces give you incredible design freedom, allowing you to take modern interiors to the next level.

## Our trend collections. Regularly updated to keep up with the latest trends.

Timeless uni decors

Exciting uni decors

Vivid natural decors

### RAUVISIO crystal slim: perfect for bathroom renovations

With RAUVISIO crystal slim, wall areas in new buildings and renovation projects can be renovated and modernised up to twice as fast. The panels can easily be attached to the underlying wall surface creating just a few barely visible joints.

### Remarkable features: can be written on and magnetic

RAUVISIO crystal surfaces not only look good, they also offer clever features, they can be written on and are also available with a magnetic function. In offices, the magnetic glass panels can be used as whiteboards.

# Processing benefits

Up to  
**20% fewer  
rejects**

## Extra break and scratch resistant

The robustness of RAUVISIO crystal ensures significantly fewer rejects compared to real glass. It ensures flawless results, especially in large-scale industrial production.

## Easy processing

RAUVISIO crystal can be processed easily using existing woodworking tools. Cuts, drill holes for handles or fittings, bends or moulded parts true to dimensions can be produced just as quickly and reliably.

## Additional advantages

- 50% lighter than real glass
- 10x more break-proof than real glass
- Pliable
- Finished co-extruded parts are TÜV-tested according to AMK guidelines

## Can be milled, inlaid, or fitted with backlights

Exciting design options and additional creative scope for special highlights.

# Benefits for use

## Perfectly integrated easily into everyday life

Is your customer's house literally bouncing with life? No problem for RAUVISIO crystal – it can cope with most things:

- high scratch and impact resistance
- can be written on
- easy to clean

## Hygienically safe

RAUVISIO crystal fronts and edgebands are available with REHAU's health-protect antibacterial protective coating. They can be combined with the RAUKANTEX pro zero-joint edgeband to create jointless components. This means that there is virtually no opportunity for dirt and bacteria to accumulate any more.

## Inspire with design

When matched with RAUVOLET crystal-line tambour doors, impressively seamless furniture can be created – thanks to RAUVISIO crystal vario in almost every conceivable color. The matt surfaces also captivate with their high-quality soft touch feel and anti-fingerprint technology.

# Elegance of simplicity: RAUVISIO crystal Pure

Pure like a grain of sand. The detail blends into the mass - calm and vision dominate the space. In RAUVISIO crystal Pure, minimalism meets durability. The material combination of the monochrome surfaces made of smart glass enable limitless possibilities for designing rooms. The collection's timeless quality means it follows the current trend. Integrated into the architecture in simple white or keeping up with the times in the latest trend colour - the perfection of RAUVISIO crystal Pure lies in its simplicity. The pure harmony of the collection puts the focus on people and leaves space for what is important.

Is perfectly suitable for: pure and timeless styles.

# Perfection of dimension: RAUVISIO crystal Deep

As deep and unfathomable as the ocean. Matt surfaces assume an unimagined depth effect with RAUVISIO crystal Deep. Immerse yourself in the combination consisting of smart glass accentuated with a subtle metallic lustre: A new era of exciting uni decors. Displaying a wide range of colours from pale grey decors to dark anthracite, RAUVISIO crystal Deep produces an air of both sophistication and discreet elegance. The Deep Collection creates strong contrasts in urban environments or forms a subtle backdrop to the overall architecture. The combination of glass and metal produces synergy effects never seen before and allows for limitless design freedom.

Is perfectly suitable for: every style.

# Power of sources: RAUVISIO crystal Strong

Nature is a strong source of energy. It invigorates and grounds us. It is full of energy and diversity. At times powerful and impressive like granite or marble, at times warm and soothing like wood, the RAUVISIO crystal Strong Collection brings the outside inside. With an original appearance, the tactile characteristics of the RAUVISIO crystal Strong Collection contrast with the smooth surface of the smart glass. The combination of materials enables unique processing and application options. Used on large surfaces, it provides rooms with a firm footing and creates an organic aesthetic. The matt or glossy surfaces of RAUVISIO crystal Strong produce unique depth effects. RAUVISIO crystal Strong appears both low-key and elegant in every application.

Is perfectly suitable for: natural styles.

# Designing with mirrors

With our RAUVISIO crystal mirror, the scope for design in your project is limitless. The material does not limit the creation of unique interior concepts. This is because it is lighter and more break-resistant than real mirrors and can be processed using conventional woodworking tools.

RAUVISIO crystal mirror offers a mirror for every application – enabling almost limitless creativity. Milling and inlays then give you even more design freedom.

## Special lighting effects

Grooves on the reverse side can be back-lit to create fascinating light effects.

# Designing with color trends

Every individual space concept requires the perfect symbiosis of color and materiality. We customize the smart glass RAUVISIO crystal to your unique color specification – for instance, with the Pantone Color of the Year. It adds a subtle freshness and vibrancy to the interior.

With our surface material RAUVISIO crystal, there are no limits to the play of colors, tailored to your individual solid color specification. Whether matte or glossy, it creates a dynamic presence in the space and offers something truly unique. Accentuated and focused or expansive – the material properties of smart glass provide design freedom.

# A stylish showcase of structure: RAUVISIO cube

## RAUVISIO cube brings the aesthetics of natural structures into the interior.

The unique surfaces of RAUVISIO cube reflect the natural beauty and the raw, timeless materials found in both architecture and nature itself. Each structure is shaped by a distinct element of the environment or architecture that has influenced the aesthetic design and textural qualities of the surfaces.

Thanks to its natural air pores, RAUVISIO cube offers a look that picks up on the rough industrial aesthetic. Each panel is individual and unique in its surface structure.

RAUVISIO cube makes it possible to combine materials that appear completely different, yet complement each other in style. The color of the authentic smoothed concrete blends seamlessly with the elegant, noble matt look of RAUVISIO noir.

reddot winner 2025

### Interior in design match

The RAUVISIO cube collection finds its color counterpart in RAUVISIO noir and thus the entire noble matt collection. The result is an almost inexhaustible variety for a pure and minimalist interior.

The range is rounded off by the RAUVOLET noble matt roller shutter in the same color.

**Authentic concrete texture****Urban Concrete**

Inspired by clear, form-defining architecture, the Urban Concrete structure captures the raw and irregular texture of concrete, which is widely found in urban landscapes. It embodies modern industrial charm and gives spaces a powerful, dynamic presence. Natural air pockets lend the surface an authentic appearance, with each panel being individually unique in its texture.

With the matching, edge-pigmented RAUKANTEX pigmento, a perfect component is created. By adding a 45° chamfer, a solid concrete slab look is achieved.

# Advantages at a glance

- More scratch- and break-resistant than real concrete
- Lighter than real concrete
- Water & heat resistance
- Authentic 3D structure
- Color match to RAUVISIO noir and brilliant noble matt
- Anti-fingerprint
- Can be worked on with standard woodworking tools

Custom components with surface configurator

**Versatility that captivates:  
the RAUVISIO brilliant acrylic  
laminate**

## With excellent colour quality and brilliance, RAUVISIO brilliant is the first choice for high-quality surfaces with lacquered look – even in matt.

RAUVISIO brilliant replaces high-quality lacquered elements in surface design and enables you to create outstanding designs for laminating vertical furniture fronts. This versatile surface offers excellent surface quality and can be cut to size using standard woodworking tools.

### **Super soft: RAUVISIO brilliant noble matt**

Elegant and resistant, the latest member of the RAUVISIO brilliant family combines a noble matt look, even at small angles, with a high-quality feel. It coordinates perfectly with the REHAU noble matt collection.

### **Withstands a lot: RAUVISIO brilliant SR**

The hard coating makes RAUVISIO brilliant SR particularly resistant to everyday use, with even higher scratch resistance and greater resistance to chemicals.

### **RAUVISIO brilliant is available in the following product variants:**

#### **RAUVISIO brilliant**

(without hard coating finish, high-gloss)

#### **RAUVISIO brilliant SR**

(with hard coating finish, high-gloss or matt)

#### **RAUVISIO brilliant noble matt**

(with hard coating finish, noble matt: perfect design match for RAUVISIO noir)

#### **Processing advantages:**

- can be processed using woodworking tools
- up to 60% cheaper to produce than lacquered components
- can be bent and trimmed to fit any design
- high-gloss milling radius possible

#### **Benefits for use:**

- colour-fast and UV-resistant
- easy to clean

#### **In addition with RAUVISIO brilliant SR:**

- high scratch-resistance
- soft touch, anti-fingerprint finish on matt surfaces
- can be written on

#### **In addition with RAUVISIO brilliant noble matt:**

- antibacterial properties possible
- no shine at small angles

## RAUVISIO noir is an emotional surface that derives its elegance and style from the incomparable world of film noir.

Ever since this unique imagery conquered the world in numerous film classics, this striking style has constantly evolved. But its core characteristic has remained to this day: timeless elegance that is unpretentious and versatile at the same time. RAUVISIO noir picks up on this concept and its silky matt finish gives surfaces an added vibrancy, striking the perfect balance between design and functionality.

With a robust HPL surface, RAUVISIO noir is an incredibly versatile material with a noble matt finish and velvety soft feel, making it the perfect choice for horizontal applications that are subjected to mechanical loads, e.g. kitchen worktops or shop counters, or just for classic use on vertical fronts.

### **Absolute harmony**

Perfectly coordinated design for surfaces, tambour doors and edge-bands – for monolithic furniture construction

### **No compromise on quality**

Whatever the weather – RAUVISIO noir is the perfect solution. Without compromising on quality, design or feel.

### Ready for everyday life

Real beauty that you can just enjoy without worrying about the challenges of everyday life.

RAUVISIO noir not only looks great, but also impresses with its outstanding durability, even under intensive use.

## Advantages at a glance

- Worry-free cooking – thanks to high heat resistance
- Easy to clean and antibacterial – because who likes cleaning?
- Waterproof – because accidents can happen
- Pleasant to use – thanks to soft touch and anti-fingerprint technology
- Long-lasting enjoyment of the furniture – thanks to high scratch and impact resistance

Compact board (available as Casa Blanca, Smoke Stack, After Dark and Midnight Dash) 4,100 x 1,300 x 12 mm  
The core is dyed to match the color.

**Cleverer than lacquered  
fronts: RAUVISIO fino**

With RAUVISIO fino, REHAU has come up with a cost-effective, high-quality alternative to expensive lacquered components.

The lacquered laminate is ideal for use with high gloss, matt or metallic vertical front panels in kitchens, bathrooms or shops. It can also be combined with a matching zero-joint edgeband to create a permanently jointless look.
